

BASIC CONCEPTS	12	The lawnmower	226
Installation diagrams in the design phase and key factors for a bioclimatic design	14	Outdoor heaters	228
		Electromagnetic pollution	230
Decalogue for a bioclimatic design and a healthy home	16		
Bioclimatic design of a building	17	The “three Rs” in the construction of a house	234
Heat recovery ventilation system	18	Reduce	236
Diagram of a roof garden	19	Reuse	238
Solar thermal installation	20	Recycle	240
Types of geothermal installations	21		
Underfloor heating	22	Alternative ideas for dwellings	242
Operational diagram of a pellet stove	23	Prefab housing	244
Photovoltaic solar installation	24	Living underground	250
Installation of a mini wind turbine	25	Cave dwellings	254
Rainwater collection system	26	Tree houses	256
System for purification of greywater	27	Camouflaged homes	260
Measures in the design phase of a green home	28	PRACTICAL CASES	264
Structure and skin	30	Environmentally Sustainable, Bioclimatic and Efficient Houses	266
Flooring and woodwork	50	Sustainability throughout the entire home	268
Passive and active strategies	56	Fabulous views from a rocky enclave	278
Room climate control	66	Comfort and ecology join hands	290
How to save water	98	Rationality to promote energy and comfort in Germany	298
Lighting systems	102	A refuge in nature with minimum intervention	308
Paint	114	Prefabricated architecture as a means of obtaining a sustainable home	320
		Modular housing for charming mountain refuges	330
How do I convert my house into an ecological home	118	Sustainable family beach home	340
Living room and dining room	120	Adaptation to the natural surroundings	350
Kitchen	130	Simplicity and harmony for a house in equilibrium with its surroundings	362
Bedroom	148	Holiday home in paradise	370
Bathroom	156	Sustainable materials for a lasting home	376
		Organic shapes and sustainable architecture	382
Practical ideas for a greener garden or terrace	176	Sustainability and ecology in a subtropical climate	390
Natural solutions as an alternative to chemical products	178	A retreat to escape from daily routine	410
Trees in the garden	182	Alpine chalet close to the Finnish lakes	418
Alternatives to grass	184	Sustainability as a target for prefabricated housing	428
When and how to water	186	Architectural sensitivity for an environmentally friendly house	436
Using rainwater	190	Natural materials for a forest setting	448
Homemade compost	192	Restoration with environmental awareness	458
Urban ecological vegetable gardens	194	Stunning views from French refuge	468
How to save water in pools	196	Walls with a life of their own	478
Natural pools	198		
Accessories for an eco-home	204	Image credits	488
How to do household chores using less chemical products
